

5 Port 100M Ethernet Switch

DK2000-115F

Overview

The DPTEK DK2000-115F series unmanaged switches are Fast Ethernet switch designed for high forwarding network environment such as school, family, SMEs and mini monitoring. It has 5 10/100Mbps adaptive Ethernet ports. All ports support wire-speed forwarding and the data rate is up to 100Mbps. There is 4K lightning protection to ensure smooth and stable operation. Auto MDI/MDIX is also available. No configuration is required; it will instantly operate as soon as you power it up.

Features

- 5*100M Ethernet port with auto-negotiation function
- Support 100M speed rate, MDI/MDIX
- Support IEEE802.3x Flow control and back pressure control
- Each port has the complete LED Indicator light
- Each port supports wire-speed switching, 64~1518 frame length can reach the wire speed
- Support multicast to avoid network congestion
- Support 5-9V voltage input
- Require no configuration and will instantly operate as soon as you power it up
- Use low-power consumption chips, only 2.5W in full load conditions
